

Many of our customers have already made their [websites](#) or [stores](#) , but the technology in which they were made refer impossible to make changes or add own content. Update this page requires continued employment of IT or outsourcing such operations to an external company.

With care on your money and time we are ready to perform for your individual [website](#) based on a [C MS System](#) and instantly move the entire contents of your current site. Moved page may look the same and even better than the previous one.

With the transfer to a [CMS System](#) you will be able to make changes by yourself, modify entries, add articles, pages, subpages or new products in your online shop. The whole thing is so simple that anyone after a short training will be able to modify the content contained on the site.

If you are intersted and want to transfer your site to the [CMS System](#) , please send us the completed [form](#) . After the analysis on used on your site technology solutions, we will price the project and answer via email or telephone.
